Rundeck Enterprise

The Platform for Self-Service Operations

What is Rundeck?

Rundeck is a self-service platform for IT Operations -- the unsung heroes of modern business. Rundeck is built to let operations run more efficiently, scale faster, and maintain security.   Rundeck is transforming the way Operations runs. Our customers report a significant reductions in interruptions, faster incident response times, and improved visibility into Ops activities.

Rundeck modernizes Operations by allowing a broader number of people — even those outside of traditional Operations boundaries— to have secure and safe self-service access to Operations tasks. Rundeck works with any of your existing tools and scripts, so there is a minimal learning curve. To maximize your Rundeck investment, both Enterprise and Enterprise Platinum include onboarding, ongoing support, and training.

Scale Operations.
Provide self-service.
Get more done.

Eliminate interruptions.
Reduce tickets.
Empower users.

Stay Secure.
Oversee everything.
Delegate anything.

Ensure compliance.
Be audit-ready.
Log all activity.

Self-service operations with Rundeck

Rundeck is designed for modern enterprise operations. Rundeck Enterprise and Enterprise Platinum offer the high availability, management, security, and workflow capabilities needed for high-value, business-critical operations environments.
